COLORS

OPTIONS

+ Stainless Steel Self-Tap

Easy and intuitive to use, by simply turning the tap, the machine starts the squeezing process. The tap allows filling in continuous and discontinuous mode.

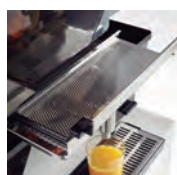

+ Self-Cleaning System

Automatic double shower system for fast and intense cleaning of the squeezing area.

+ Pulp-Out Filter & Stainless Steel Self-Tap

Allows you to swipe seeds and pulp directly into the waste bin, by just sliding the Pulp-Out sweeper to the side.

+ Automatic Double Action Filter & Stainless Steel Self-Tap

Transports automatically seeds and pulp into the waste bin.

ACCESSORIES

+ Bottle holder

The bottle holder is fixed to the stainless steel self service tap. It allows the customers to operate the machine with one hand, without having to hold the bottle.

+ Squeezing kits

45-60 mm juice squeezing kit to process small calibre fruits.
